

automatic control systems 8th pdf

Automatic number-plate recognition (ANPR; see also other names below) is a technology that uses optical character recognition on images to read vehicle registration plates to create vehicle location data.

Automatic number-plate recognition - Wikipedia

The Automatic Warning System (AWS) was introduced in 1956 in the United Kingdom to provide a train driver with an audible warning and visual reminder that they were approaching a distant signal at caution. Its operation was later extended to give warnings for; A colour light signal displaying a double yellow (steady or flashing), single yellow ...
