

computer generated 3 dimensional pdf

Modern architects use services from computer graphic firms to create 3-dimensional models for both customers and builders. These computer generated models can be more accurate than traditional drawings.

Computer-generated imagery - Wikipedia

3D computer graphics or three-dimensional computer graphics (in contrast to 2D computer graphics), are graphics that use a three-dimensional representation of geometric data (often Cartesian) that is stored in the computer for the purposes of performing calculations and rendering 2D images.

Measurements of the air flow generated by a ceiling fan were collected in an environmental chamber in controlled conditions. The developed 3D transient CFD model is able to represent the key characteristics of the air flow generated by the fan.

Under review as a conference paper at ICLR 2016 We show that the generators have interesting vector arithmetic properties allowing for easy manipulation of many semantic qualities of generated samples.
